AKASH PAL

MERN Stack Developer — Full Stack Web Developer

📞 +91-8922812510   ✉ palankit86762@gmail.com   🔗 linkedin.com/in/Akashpal   🔗 Github.com/in/Akashpal

Summary

Full Stack Web Developer specializing in MERN stack with experience building scalable web applications, RESTful APIs, AI-integrated platforms, and job portals. Strong in React.js, Node.js, MongoDB, authentication systems, and cloud deployment. Developed 7+ production-ready projects used by real users.

Skills

Programming Languages: JavaScript, C, C++, Python, SQL
Frontend: HTML, CSS, React.js, Next.js, Tailwind CSS
Backend: Node.js, Express.js
Databases: MongoDB, PostgreSQL
Tools: Git, GitHub, Vercel, Render,MS office
Concepts: REST APIs, JWT Authentication, DSA

Project Experience

Full Stack Developer — Freelance / Self Projects   **2024 – Present**

- Built 7+ production-ready web applications using modern web technologies

- Implemented secure authentication using JWT and Clerk

- Integrated third-party APIs including Gemini AI and RapidAPI

- Deployed applications on Vercel and Render

Projects

- **OneDayJob – Job Portal Platform**
  Built a full-stack job portal allowing users to post, search, and apply for jobs using React.js and Node.js. Developed REST APIs for job management and user authentication.
  Live: onedayjob.space   GitHub: github.com/AKASHPAL1234/Onedayjobfinal

- **Sky-Blog – Blogging Platform**
  Created a secure blogging platform with user authentication and CRUD functionality for posts. Implemented JWT-based authentication and file uploads.
  Live: sky-blog-phi.vercel.app   GitHub: Repository

- **SkyCare – Healthcare Web Application**
  Developed a healthcare platform for appointment scheduling and real-time communication. Used Next.js with PostgreSQL and Prisma.
  Live: skycare-rho.vercel.app   GitHub: github.com/AKASHPAL1234/Skycare

- **VirtualAI – AI Powered Web Application**
  Built an AI assistant integrating Gemini AI API for intelligent responses. Designed responsive UI with backend API integration.
